HORSESHOEING AND WAGON WORK done in the most satisfactory manner on SHORT NOTICE and REASONABLE RATES [n30-tf]

$1500 TO $6000 A YEAR, or $5 to $20 a day in your own locality. No risk. Women do as well as men. Many make more than the amount stated above. No one can fail to make money fast. Any one can do the work. You can make from 50 cts. to $2 an hour by devoting your evenings and spare time to the business. It costs nothing to try the business. Nothing like it for money making ever offered before. Business pleasant and strictly honorable.—Reader, if you want to know all about the best paying business before the public, send us your address and we will send you full particulars and private terms free; samples worth $5 also free; you can then make up your mind for yourself. Address GEORGE STINSON & CO., Portland, Maine. 1y5

In the course of the seasons the time has arrived when the young man sits in the parlor with the idol of his soul, and thinks he would be in heaven if he were married; whereas, the girl's father, who has been married for some period, probes around the house with a lamp, looking for some cold food for his supper, and smiles a smile suggestive of sad experience when he reflects that he was once young and beautiful himself, and as big a fool as the young man on the sofa.

Count Schouvaloff is said to be serious ill from carelessly neglecting to Shouvaloff the snow from his name after the late storm.

JUDICIOUS ADVERTISING.
[Saturday Magazine.]

A man was denouncing newspaper advertising to a crowd of listeners. "Last week," said he, "I had an umbrella stolen from the vestibule of the —— church. It was a gift; and valuing it very highly, I spent double its worth in advertising, but have not recovered it." "How did you word your advertisement?" asked a merchant. "Here it is," said the man, producing a slip out from a newspaper. The merchant took it and read, "Lost from the vestibule of the —— church last Sabbath evening, a black silk umbrella. The gentleman who took it will be handsomely rewarded by leaving it at No. — San Fernando street." "Now," said the merchant, "I am a liberal advertiser, and have always found that it paid me well. A great deal depends upon the manner in which an advertisement is put. Let us try for your umbrella again, and, if you do not acknowledge that advertising pays, I will purchase you a new one." The merchant then took a slip of paper from his pocket and wrote, "If the man who was seen to take an umbrella from the vestibule of the —— church last Sabbath evening does not wish to get into trouble and have a stain upon the Christian character he values so highly, he will return it to No. — San Fernando street. He is well known." This duly appeared in the paper, and on the following morning the man was astonished when he opened the front door of his residence. On the porch lay at least a dozen umbrellas of all shades and sizes that had been thrown in from the sidewalk, while the front yard was literally paved with umbrellas. Many of them had notes attached to them saying that they had been taken by mistake, and begging the loser to keep the little affair quiet.

Leap Year in Law.
[St. Louis Times-Journal].

The Supreme Court of Indiana has affirmed a principle in respect to the computation of time which is likely to prove of serious trouble to bankers and others. It is that the 29th of February are to be computed one day. The question becomes of special importance now that the leap year (1880) is so close at hand.

To illustrate, suppose that a note be drawn on the 28th day of February, A. D., 1880, at one day after date. If the 28th and 29th be counted as one day, then the note would mature on the 4th of March, but otherwise on the 3d. If on the 3d, clearly a protest on the 4th would not hold the endorsers. Vice versa, if the rule of computation be to count separately the 28th and 29th of February, the protest on the 4th would be of no avail.

The question in Indiana was suggested by the fact that there ten days' previous service of process is necessary for judgment. And the cause having been begun in the last leap year, 1876, the process was not served in time, if the 28th and 29th days of February were to be computed as one day. And the Court held that they must be so counted.

DELICACY OF THE MINT SCALES.—The fine gold weighing scales, made in Philadelphia for the New Orleans mint are marvels of mechanical invention and accurate workmanship. The larger of the two has a capacity of 10,000 ounces troy, or about 686 pounds avoirdupois, and when loaded to its full weight will indicate a vibration of one-thousandth part of an ounce, or the millionth part of its weighing capacity, another pair of scales is the one intended for the weighing of gold only. It has bearings of the finest agates, which have been ground with wonderful precision. So delicate is the machine that it will give the precise weight of a human hair, and is susceptible to the slightest atmospheric changes.—New Orleans *Times*.

The cradle which the King of Burmah has just had manufactured for his child is so magnificent as to cost the State two lacs of rupees. It was first framed with mango wood and then encased with sheet gold inside and out, over this is ornamental gold work set with diamonds, rubies, sapphires, emeralds and other precious stones. The cradle is swung from a rod by cords made of gold wire; and the bed or cushion is of embroidered green velvet. The baby's wardrobe cost 5,000 rupees.

A Missouri arithmetic man seeks to show by an elaborate calculation that if the dogs in that State—mostly worse than useless—were replaced by pigs, it would be a positive gain the first year of $4,500,000, to say nothing of the consequent promotion of sheep husbandry that would speedily result.

Jefferson Davis is said to be growing blind; and his wife, since the death of their son, has become an invalid.

The Use of Small Means.
[Boston Journal.]

The use of small savings has not been enough insisted upon. We have had plenty of light on co-operation in labor and in expenditures, and there has been no end to the wild schemes for making men wealthy by short and easy methods, as by a redistribution of property, the limitless manufacture of paper money, etc. But the slow, simple, old fashioned plan of providing for to-morrow's contingencies by setting aside a portion of to-day's receipts, has fallen sadly into disuse. It is a tedious business, and not at all in accord with the prevailing desire to get rich all of a sudden and with trifling exertion. We are all familiar with the calculation which shows how much ten cents a day, or twenty cents a day, laid aside and put out at interest will amount to, twenty, thirty, or forty years hence. But we smile at the figures as a mere freak of enthusiasts, and squander every day upon insignificant enjoyments or out of sheer carelessness sums of money which, if saved, would make the "rainy day," which somewhere in waiting for most of us, a good deal brighter than it is likely to be otherwise. It is probable the "hard times," from which we are emerging, have helped to teach this lesson, among others, and that more people than formerly will be disposed to test the utility of small savings. It is bad enough out of an income of twenty pounds to spend twenty pounds and make no provision for the future, but the trouble with most of us has been that we have been spending the extra shilling which was not ours to spend. Hence our "settlements" are considerably less than one hundred cents on the dollar.

An experienced doctor in the West says his bills are cut down in families in proportion as they eat fresh fruit. Strawberries, currants and tomatoes are better medicine than calomel or jalap, and rather better to take. Apples freely eaten do the work of vermifuge or lozenges. Every fruit or berry has its mission to man hidden away within it. Therefore, set out a strawberry bed, if you havn't one. If there is no other place, border your gardenwalks, and with a sharp hoe and straight line keep the edges cut clearly, leaving a rich mat of vines two feet wide. Plant currants. A fresh cutting will grow, if you but stick it in the ground. Border the fence with raspberries. Walk around your place during the early spring days and make a mental inventory of every spot where you can stick in a fruit tree or a berry bush. Plant something.

WHAT THE MICROSCOPE REVEALS.—Lewinhook tells of an insect seen with a microscope, of which 27,000,000 would only equal a mile. Insects of various kinds may be seen in the cavities of a grain of sand. Mold is a forest of beautiful trees, with branches, leaves and fruit. Butterflie's are fully feathered. Hairs are hollow tubes. The surface of our bodies is covered with scales like a fish; a single grain of sand would cover 150 of these scales, and yet each scale would cover 500 pores. Through the narrow openings the perspiration forces itself like water through a sieve. The mites take 500 steps a second. Each drop of stagnant water contains a world of animated beings swimming with as much liberty as whales in the sea. Each leaf has a colony of insects grazing on it like cows in a meadow.

PERFECT LOVE.—Holy and beautiful indeed is the smile of fathomless and perfect love. Too seldom does it live; too seldom lighten heavy cares and earthly sorrows. Too seldom does it gladden burdened hearts, give refreshing dews to thirsty souls. Too seldom, indeed, does it have a birth. Too often does it soon leave life's pathway, even if fairly born and dearly welcomed there.

On the other hand, as the preacher would say, the house of a man happily married is a paradise. He never leaves it without regret, never returns to it but with gladness. The friend of his soul, the wife of his bosom, welcome his approach with a smile and a word that sends joy to his heart; and the longer he lingers in the atmosphere of her love, the more he desires to dwell there forever.

In Luttich, Germany, a new kind of sport has been invented. Thirty-two cats were taken in sacks a fortnight ago to a place twenty-four miles distant from the town and turned loose at two o'clock in the afternoon. The winner of the singular race that followed arrived home at forty-eight minutes after six, and within twenty-four hours every cat had returned to its own hearthstone

Going out with the tied—a wedding party leaving the church.

THE CHRONICLE.

BODIE, NOVEMBER 8, 1879.

County Official Press.

SAN FRANCISCO AGENCY.—L. P. Fisher, 21 Merchants' Exchange, is our Agent, and is authorized to contract for advertising, receive subscriptions and make collections on our account.

THANKSGIVING.

The following proclamation has been issued by the President:

At no recurrence of the season which the devout habits of religious people has made the occasion for giving thanks to Almighty God, and humbly invoking His continued favors, has the material prosperity enjoyed by our whole country been more conspicuous, more manifold or more universal than during the past year. Also, unbroken peace with all foreign nations, the general prevalence of domestic tranquility, and the supremacy and security of the great institutions of civil and religious freedom, have gladdened the hearts of our people and confirmed their attachment to the government which the wisdom and courage of our ancestors so fitly framed, and the wisdom and courage of their descendants have so firmly maintained to be the habitation of liberty and justice to successive generations.

Now, therefore, I, Rutherford B. Hayes, President of the United States, do appoint Thursday, the 27th day of November, instant, as a day of national thanksgiving and prayer, and I earnestly recommend that, withdrawing themselves from secular cares and labors, the people of the United States do meet together on that day in their respective places of worship, there to give thanks and praise to Almighty God for His mercies, and to devoutly beseech their continuance. In witness whereof, etc.

RUTHERFORD B. HAYES.

By the President. WM M. EVARTS, Secretary of State.

A "SOLID NORTH."—The result of the election held in several Western and Eastern States on Tuesday last shows that the late Democratic Congress, coupled with the shot gun practice in the southern States have made a "solid" North. New York has effectually shelved Tilden—as Ohio served Thurman, Cornell, the Republican candidate for Governor being elected by some 30,000 majority over Robinson. Massachusetts has given Butler a black eye, Long, the Republican nominee, having been elected by a handsome vote. Pennsylvania, Wisconsin, Minnesota, Nebraska and Illinois have given increased Republican majorities, and in Connecticut the Republicans have secured the Legislature, and the Republican hold-over Senators will next year secure the election of a Republican U. S. Senator in place of Eaton. Of course, "My Maryland" and shot gun Mississippi went for the Democracy.

The Ohio election caused the Memphis *Avalanche* (Democratic) to say:

"A solid North bids the Southern Democratic leaders pause. But it is too late. The solid North has been made, and James Buchanan will remain the last Democratic President for all time"

The late elections confirm this, and the census next year will let the "Solid South" out as a political power.

LONG IN THE LAND.—The *Record Union* says that among the passengers by the east bound lightning express train Tuesday night was Nicholas Singley, who was en route to meet at Colfax his son, who resides at Grass Valley. Mr. Singley was born in Philadelphia in 1778, and is consequently 101 years of age. He came to California in 1849, and lately has been living at Eureka, Humboldt county. He says he drank liquor and smoked cigars when he was a youth, but has neither drank or smoked since he was about 30 years old. He chews tobacco, however. He is hale and hearty, and has tolerably good eyesight. His brother, now living in Indianapolis, is 105 years of age, and his father was 107 years old when he died.

Panama advices state that Paraff, the oleomargarine swindler, who went from San Francisco to Santiago and organized mining frauds there, and was imprisoned two years ago, has been sentenced to five years exile in Valvidia, under guard. Paraff's fraud in Santiago entailed a loss of thousand dollars upon several of the most estimable members of the community, who for a time solemnly believed in the humbug. Works costing hundreds of thousands of dollars were erected at Santiago for the reduction of ores according to Paraff's method, which remain to this day as a monument of his frauds.

The Spanish Cabinet has decided upon adopting the proposed bill for the abolition of slavery in Cuba, with certain modifications. The slaves who are at present eight years of age or under are to remain with their masters, but are to receive wages, the amount of which will be decided by reference to the authorities in which the plantation is situated, and every year eighteen of the slaves are to become absolutely free, those to be designated by lots.

Eighteen months since a son of Major Sullivan of Green Valley, Sonoma county, placed 26 carp in a spring on his father's place. They have multiplied until now there are over 2,000 They are about nine inches long. By the way, who counted them.

The diphtheria has again broken on in Markleeville, Alpine county.

A GOOD IDEA.

Governor Irwin and Governor elect Perkins have jointly appointed a Commission consisting of Hon. I S. Belcher, of Yuba county, Hon. T. P. Stoney, County Judge of Napa, and A C. Freeman, of Sacramento, to overhaul the Codes and statutes and ascertain what amendments are necessary to make them conform to the provisions of the new Constitution, and to report to the incoming Legislature. This Commission has been instituted for the purpose of assisting the Legislature in framing necessary laws during the limited time it is to be in session, it being the opinion of the appointing ones that help of this character is absolutely necessary to enable the members to act understandingly and get through with the great amount of work that will be required at their hands this Winter. It is true this Commission has been appointed without any authority of law, but the Governors believe that the Legislature will see the utility of their proceeding and will allow the appointees suitable compensation. Objection has been raised to their appointment, that their amendments will "smack" too much of their individual views; and the Sandlotters, headed by Kearney, are greatly indignant, as, they say, the Commission is composed of men who were opposed to the new Constitution, and that they will, therefore, prepare laws that will not be in accord with the new organic Act—or at least in sympathy with its spirit. This is all bosh. The new Constitution will be the law of the State when the Legislature assembles, and its provisions must be lived up to, whether it suits or not. The objection that the laws or amendments that the Commissioners will recommend, will bear the earmarks of the individual members of the Commission is too far fetched. We favored the suggestion for the appointment of such a Commission, believing that it would materially assist the members of the Legislature in getting through with the great amount of work they will be called upon to perform within the hundred days—the limit of the session. That the Legislature will adopt everything the Commission recommends without due consideration is hardly to be supposed, consequently the individual feelings of the Commission will amount to nothing unless they agree with those who are to act upon them and frame them into laws. Without such assistance the Legislature cannot—unless it will be composed of far different material from those we have had—get through, with credit to itself or for the best interests of the State, the great bulk of business that will require attention. We think the Governors have done right and that the people will approve their course in this matter.

Death of Senator Chandler.

On last Saturday night Hon. Zachariah Chandler, U. S. Senator from Michigan, addressed a large Republican meeting in Chicago, and at a late hour retired, complaining of indigestion, and requested to be called at 7 o'clock next morning, as it was necessary for him to return home. The office-boy went to his room at the appointed hour, but no response was given. The clerk effected an entrance through the transom, and found the Senator dead. He had been dead about three hours, and his death must have been painless, judging from his tranquil face. Senator Chandler was about 66 years old, having been born in Bedford, New Hampshire, December 10th, 1813. He received an academical education, and was bred a merchant. In 1851 he was Mayor of Detroit, and in the following year ran for Governor of Michigan and was defeated. He succeeded Cass in the U. S. Senate, of which body he was a member about nineteen years. He was Secretary of the Interior under Grant, and was Chairman of the Republican National Committee during the last Presidential campaign, and worked hard for the success of the ticket. He was a strong partisan, and probably there is no Republican so well hated by his Democratic enemies as was Zach Chandler.

DEATH OF GENERAL HOOKER.—This distinguished soldier, familiarly known as Fighting Joe Hooker, the hero of Lookout Mountain, died suddenly at Garden City, Long Island, on Friday October 31st. General Hooker was a resident of California in early days, and when the Rebellion was inaugurated he took sides with the Union and did noble service under Old Glory. He had attained the age of 66 years. A grateful people mourn the loss of the noble old veteran.

The Porte has prohibited the sending of grain from Turkey. This order will not prevent us from putting all the grain we can into Turkey before Thanksgiving Day.

New Mexico wants a Congressional appropriation for the purpose of constructing reservoirs to hold water in which to drown Indians and Indian agents.

Charles Carr found two nuggets in his claim at Gold Run, Placer county, last week, the largest weighing 23½ ounces, valued at about $450, and the other 3½ ounces.

Notice to Creditors of Insolvent.

IN THE COUNTY COURT OF THE COUNTY of Mono, State of California.
Geo. C. Marks, vs His Creditors
Pursuant to an order of the Hon. H. I. Leavitt, Judge of the said County Court, notice is hereby given to all the Creditors of the said Insolvent, George C. Marks, to be and appear before the said Judge, in open Court, at the Court Room of said Court, in the town of Bridgeport, in the County of Mono, on the 3d day of December, A. D. 1879, at 10 o'clock A. M of that day, then and there to show cause, if any they can why the prayer of said insolvent should not be granted, and an assignment of his estate be made, and he be discharged from his debts and liabilities, in pursuance of the Statute in such case made and provided; and in the meantime all proceedings against said Insolvent be stayed.
Witness my hand and the seal of said Court, this First day of November A.D 1879.
[L.S.] D. JEFFREYS, County Clerk.

LOCAL INTELLIGENCE.

WATER SUPPLY

The Bodie Water Company on Saturday last received over twenty bids for digging the reservoir on the "hill" and the ditches required to lay the pipe in to and through Main street. The contract was let to J. M. Watson and J. Anderson. The reservoir is to be made between the Mono and Goodshaw mines, and will be 50 feet square on top, 30 feet on the bottom and 10 feet deep, and will hold in the neighborhood of 180,000 gallons. It is to be finished and the ditches dug and prepared to receive the pipe on or before the 4th of December—weather permitting. The pipe is to be laid on the east side of Main street, close to the sidewalk, and eight hydrants will be distributed at equal distance, say 300 feet apart on Main street between Miners' Union Hall on the south, to the vicinity of Bryant & Welch's old store on the north. The Directors met at West & Bryants office on Thursday to act upon the bids received for furnishing pipe, etc. Three bids were received from San Francisco, and one from Gillson, Barber & Co., of this place. After due consideration of the several bids it was found that the one from Gillson, Barber & Co. was the most favorable and to them the contract was awarded. The contract calls for about 4,000 feet of pipe—6, 8, 9 and 10 inch—and two hose carts with 1,000 feet of carbolized hose. The pipe will be laid as follows: from the reservoir there will be one section of 10 inch pipe, to be followed by one of 9 inches, then 8, followed by the 6 inch to and through Main street. The pipes are to be laid as fast as the ditches is completed, so that the water may be turned on at an early day in December. These works will give us a fall of 175 feet. The work of excavating for the reservoir was commenced on Tuesday morning by a large force of men, and will undoubtedly be completed within the contract time. We congratulate our citizens upon the progress made by the Directors of the Bodie Water Company toward placing our town in a position of security from destructive fires.

BODIE BANK ELECTION.—On Tuesday last the stockholders held their annual meeting and elected the following officers: Directors—William Irwin, Geo. Gillson, James M. Dawley, F. R. Hessell and W. H. Pope. At a meeting of the Board of Directors the following officers were elected: William Irwin, President, George Gillson, Vice President, and W. H. Pope, Cashier.

ANTELOPE VALLEY.—The traveler through this valley will find a generous and hospitable people, notwithstanding our morning cotemporary says otherwise. Among them we may mention Dr. Goodnow, Judge Pope, David Kincaid, Wm. Redler, Wm. Wiley and Rev. Mr. Nims. Though most of them do not keep public houses, yet their doors are always open.

COUNTY SAFE.—On Tuesday last the Board of Supervisors authorized county Treasurer Tinkum to purchase a burglar and fire-proof safe, with combination and time locks, for the use of the County Treasurer, the cost not to exceed $1,500. This is a move in the right direction, and will be moneys well expended.

NEW INCORPORATIONS.—The following new company has been incorporated for Mono county:

The East Noonday Gold and Silver Mining Company, Bodie District. Capital stock, $10,000,000. Directors, C. A. Gored, Wm. L. Higgins, F. C. Mosebach, W. K. Leveridge, N. Winants.

A letter received in Silver City from a well known miner now working in Bodie, states that the newspapers of that place refuse to publish the usual notices of deaths because the rate of mortality is too great.—Lyon county *Times*.

That "well known miner" is a first-class liar, and the company employing him should give him his "time."

APPOINTED.—On Monday last the Board of Supervisors appointed Dr. John F. Summers Public Administrator and Coroner, Dr. Veal having failed to qualify.

COUNTY TREASURY.—On Monday last the County Judge and Auditor counted the moneys in the County Treasury and found there should be, and was, the sum of $16,954 02.

NEW ADVERTISEMENTS.—Under "New To-Day" will be found the advertisements of

Gem Chop House, Mrs Moss; Caution, Thompson & Barker.

Respectfully submitted,
Nov. 1, 1879. D. JEFFREYS, Auditor

GRAND JURY REPORT.

In the County Court, Mono County, California.

September Term of said Court, A. D. 1879.

To the Honorable the County Judge of Mono County:

The undersigned empanneled at above Term of the County Court as a Special Grand Jury, respectfully submit the following as our final report.

We have had under consideration various charges and examinations of a criminal character.

We have found true bills of Indictment against the following persons, now confined in the County Jail. To wit:

Indictment against Manuel Trites, for Murder.

Indictment against B. Parsons, for Forgery

Indictment against Uriah Mayfield, for assault with intent to commit Murder.

We have examined two charges of assault to commit murder which charges we have ignored.

We have examined one charge of obtaining money under false pretenses, and have dismissed the same.

Other business has been brought to the attention of the Grand Jury for examination, but, owing to the severe illness of a member of our body, and his consequent absence, we have been unable to consider the same.

A former Grand Jury having provided for the employment of suitable Experts to examine the books of the several officers of the County, we have not thought it expedient to examine said books and accounts, as from the limited time at our disposal, such an examination would be only superficial and unsatisfactory. Respectfully submitted,

WM. MCBRIDE, Foreman of the Grand Jury.

The above is duly attested by D Jeffreys, County Clerk, by A. C. McKinnon, Deputy Clerk.

THE POST OFFICE.—Had our cotemporaries not attacked the motives of Postmaster Putnam in a scurrilous manner he would have informed them that he had special and peremptory orders from Washington to remove the office, and that the site was selected by the Postal Agent. The same order would have been issued had any other been Postmaster. Had the papers not mistaken their calling, our citizens would have saved labor, time and money by not fighting an irrevocable Government order. Our cotemporaries are signally unfortunate in their championship, and, as journalists, they have yet considerable to learn.

A FLORENCE NIGHTINGALE.—Miss Jennie M. Beggs, of Bodie, is a Florence Nightingale. Her untiring devotion to the sick is worthy of more than passing notice. This is evidenced by the action of the Pacific Coast Pioneers, who have personal knowledge of her kindness and generosity, in adopting the following Resolution: That Miss Jennie M. Beggs receive our heartfelt and sincere thanks for the care bestowed on M. H. Harrington, our Brother in ill health, and that the same become a matter of record.

ORDER OF UNITED WORKMEN.—A lodge of this order was organized on Monday evening last by the election of the following officers: M. J. Roe, Past Master Workman; P. P. Willard, Master Workman; P. B. Taylor, Grand Foreman. R. L. Peterson, Overseer; R. G. Preshaw, Financier; Thos. M. Forest, Recorder; N. O. Son, Receiver; J. Matthews, Guide; M. Mallory, Inside Watchman; F. H. Frey, Outside Watchman; L. A. La Grange, Judge. A. H. Griswold, assisted by George S. Morton, organized it.

LAST TRIP.—The Sonora stage makes its last trip for the season to morrow, leaving here at 6 o'clock in the morning.

Obsequels of W. S. Bodey.

On Sunday last the remains of William S. Bodey were re interred under the auspices of the Pacific Coast Pioneers of Bodie at 2 o'clock, the remains were removed to Masonic Hall where they were viewed by a large number of citizens and ladies. Under the marshalship of Pat. Holland they were escorted to the cemetery by the Pioneers and citizens of Bodie. The following gentlemen were pall-bearers—I. J. Messic, J. M. Massey, James Showers, P. J. Kelly, S. D. Cobb, H. B. Davison, S. B. Ferguson, Jos. Wasson and J. N. Hutrison. At the grave President B. B. Jackson introduced Hon. R. D. Ferguson who addressed the audience as follows:

FRIENDS AND BROTHER PIONEERS: These ceremonies comprise all that there is in the history of man. Once born, he hopes, fears, struggles, and then dies. With the ashes of poor Bodie cares and sorrows are no more. For nearly twenty years he has slept from his labors.—What hopes, what fears, what struggles, or what sorrows may have filled his manhood's breast, we may never know. But there is something in remembrance of the man in whose honor these ceremonies have been inaugurated, which awakens emotions, sad, beautiful, and endearing. Who among us, can stretch imagination to compass the wild emotions of this now lifeless pioneer, as he gazed for the first time on the glittering gems of gold which studded Bodie Peak? Or who, as he contemplates the wondrous mines of wealth which have since been developed beneath its summit, shall say that the spirit of the departed prospector did not then wander out in the realms of undying prophesy and explored their hidden treasures? Who among us does not, in the presence of these gathered ashes, feel a power and spell creeping over him of veneration for the bold spirit which once animated and sustained them? Or who, lifted up in the high hope of the coming future of this town which bears his name, does not see, on the time-scroll of the immediate past, the impress of the hopes, fears, struggles and emotions of him whom we are here to bury and to honor? And so we do his memory honor; not stopping to dwell upon his character, further than to know and to remember that he was a man of that indomitable pluck and energy, which led him up these steeps in the month of February, when the blasts of a wintry sky, chill and frozen, were too severe for his powerful constitution and vigorous manhood; that he fell, wrapped in Winter's snowy mantle, away from friends and home, with no loving hands to smooth his fevere brow, or soft eyes of affection to tenderly beam upon him or cheer the agony of his departing spirit; that the sad fatality which seems to attend all prospectors followed him, and he failed to reap the benefits of his own discoveries. It would be a pleasing thought, if we could imagine that his generous spirit, freed from its ancient prison-house of clay, was still "prospecting" in that "undiscovered country" on the other side of the great river, where, when we shall follow, it may point us to grander beauties and richer treasures on those celestial summits not made with hands. If he had faults, let them be buried with him here. Let his gathered dust slumber till the general call. Let him repose in peace on this lofty summit, amid these everlasting hills; here, where he blazed the trail, and marked the first footprints to our golden peaks. Let a fit and enduring monument be reared to his memory. Let its base be wrought from the chiseled granite of these mountains. Let a marble shaft rise high above with sculptured urn o'ertopping, with the simple name of BODIE there, to kiss the first golden rays of the coming sun, and where his setting beams may linger in cloudless majesty and beauty, undisturbed forever.

And, my friends, let these sad ceremonies make us wiser and better. Standing uncovered, like the ancient Persian, on these high peaks, whose unwalled temples are fitting shrines for worship, let us, one and all, feel the poet's machless power in the utterance hat,

"If from society we learn to live,
'Tis solitude should teach us how to die.
It hath no flatterers; vanity can give
No hollow aid. Alone, man with his God must strive."

And so we leave poor Bodie with his God alone.

INTERVIEWED.—A correspondent of the New York *Evening Mail* has been interviewing B. B. Minor, our well known Bodie mining operator, whom he met in Denver, Colorado, on his way to Leadville. Mr. Minor, thinks that the future of Bodie District is assured, and it may be set down as good for a yield of $5,000,000 per year after the 1st of next January, when our new mills will be finished and working. J. M. Harper, also well known here was at Denver on his way to Leadville, where he has large mining interests. We believe that Mr. Minor is not far out of the way in his Bodie calculations. The developments that have already been made and will be made between this and next Spring, coupled with the great increase of our milling facilities will enable Bodie to astonish the commercial world in 1880 in its immense increase of bullion.

THE NUMBER.—The Postmaster General having ordered a count of all letters and papers mailed from the 1st to the 7th day of November inclusive, the Bodie office makes the following exhibit: Letters, 4,083; papers, 4,521.

DIVIDENDS.—On Saturday last the Standard Consolidated declared the usual monthly divdend of fifty cents per share, payable 12th instant. The Bodie Bank has declared a dividend of two per cent. payable on the 12th instant.

PLEASANT TIME.—On Tuesday evening last, after the meeting of Pioneers had adjourned, singing, music, and recitations were in order and an enjoyable entertainment whiled away a pleasant evening. A large number of citizens, not Pioneers, participated.

GOOD.—Yesterday the Standard Mining Co. cheerfully paid $1,540 special school tax. No soulless corporation there!

GONE.—The old colored man, known as "old Bill," bell ringer, suddenly died yesterday morning. The old story, whiskey and exposure.

THE BODIE MINES.

JUPITER.
Porter Holmes, Sup't.

This week east and west crosscuts were started from the south drift at a point 67 feet south from the station, to determine the exact location of the ore bodies developed in the east and west main crosscuts from the shaft, both being ledge matter, with flattering indications that ore bodies will soon be reached. The south drift is being pushed ahead, and improving. The entire force of the mine is concentrated at these points—the most promising portion of the mine.

DUDLEY.
Porter Holmes, Sup't.

The main shaft is down about 85 feet below the 400-station, and still in hard rock, but working well. More water than usual has been encountered, but the pumps handle it very easily. The west crosscut, 400 level, is in about 90 feet, the ground being much softer and carrying bunches and seams of quartz. It is thought that the Dudley ledge will soon be reached, as in the 300-level it was 106 feet west from the shaft, with a slight pitch to the east. At the 500-level another crosscut will be started.

CON PACIFIC.
Martin Jones, Sup't.

The work of sinking on this mine is being speedily advanced. The main shaft is now 22 feet below the 400 station, in favorable ground, and sinking about two feet per day. Preparing to run north from the 400-station. This mine is now under the superintendency of Martin Jones, Judge McClinton, the late Superintendent, having resigned, intending to spend the Winter in San Francisco.

BOSTON CON,
Martin Jones, Sup't.

Work on this mine has gone forward without interruption. The bottom of the incline is in favorable ground for sinking, and still in the footwall. The working force at the mine has been doubled since the 1st of the month and the 200 foot level will be reached by the 1st of December. This mine is also under the superintendency of Martin Jones, Superintendent of the Con. Pacific.

BELVIDERE.
Porter Holmes, Sup't.

The east crosscut, 300-level, is in about 70 feet; west crosscut, about 60 feet. Since last report there has been a great improvement in the character of the ground in both crosscuts, particularly in the east crosscut, where some moisture is making its appearance, with heavy clay seams, with every indication of the nearness of the ledge.

BLACKHAWK.
S. B. Ferguson, Sup't.

The shaft has been sent down 8 feet this week, making a total depth of 451 feet. The bottom is in pretty hard blasting rock. The quartz has pitched out of the shaft to the west. Cross drift at bottom of winze advanced 6 feet, a total of 53 feet. The face of drift, east, is a mixture of porphyry, clay and quartz.

DEFIANCE.
Porter Holmes, Sup't.

The shaft is now down nearly 420 feet, and as soon as sufficient depth is attained for a sump, a station will be cut out at the 400, and crosscuts started east and west. The west crosscut on the 250 level is in something over 140 feet, in very favorable ground, and it is thought that a ledge is not far off.

GOODSHAW.
Thomas Buckley, Sup't.

The work of putting in the pumping machinery is being pushed. The connections have all been made, and the pump and steam columns are being put down, and next week sinking operations will probably be resumed.

CROESUS.
S. B. Ferguson, Supt.

The east drift has been advanced 6 feet—total 61 feet east of shaft. The formation has been broken up—A confused mass of clay and quartz.

BODIE TUNNEL.

There is nothing new to report in regard to this enterprise. The tunnel is being driven ahead at the rate of about 3 feet a day.

CALIFORNIA.
S. B. Ferguson, Sup't.

Progress in new shaft this week, 7 feet, a total of 68 feet. No change in formation since last report.

WILL CELEBRATE.—The colored people of this State will have a State celebration at Sacramento on the 1st of January, 1880, in honor of the signing of the Emancipation Proclamation by President Lincoln. Arrangements have been made to call meetings in every county to arrange for uniting in the celebration.

It is the discreditable and silly boast of some young men who have attained their majority, perhaps prematurely, that "they never vote." If such boasts were universal the country would be in a worse political snarl than it is now. Men owe it to themselves and their citizenship to vote and do all they can to purify the political world, local, State and national.—N. Y. *Mail*.

ANOTHER TRIAL.—The noted St. Julian will to-day, over the Oakland track, try to beat his own time—2:12¾—the incentive being $1,000. It is thought that he will be able to do it, and that he is capable of trotting his mile in 2:10

It is said that Cruz Lopez, the Mexican desperado, has a band of eighteen bandits in San Diego county.

INDIAN SCARE IN LAKE COUNTY.—The Lakeview *Herald* of October 18th says that the settlers in the vicinity of Stein's Mountain, White Horse and other points on the frontier are again becoming alarmed at the threatening attitude of a number of remnant bands of Indians, who for sometime have avowed, by murderous acts and threatening raids, their permanent hostility to the whites. It is reported by the ranchmen of that section that the fiendish reds are resorting to threats and very suspicious behavior to frighten the settlers away. Woodmen have refused to go into the mountains to pursue their work, stating to their employers that it is very unsafe, if the deportment of the reds may be supposed to have any significance. The settlers are on the lookout for squally times, and are prepared to protect themselves.

A marvel of the age. It is impossible to say too much in praise of that good old standard remedy, Emil Frese's Hamburg Tea, and no household should be without it. It prevents, as well as cures, skin diseases, gout, rheumatism, gravel, affected liver, headache, nausea, bile, wind, indigestion, constipation, fevers, sleeplessness, lassitude, foul breath, and every disease brought on or aggravated by a disordered stomach. Once used it is always used. Try it.

A party of forty-seven persons, among whom there are twelve married couples and fourteen children, have lately sailed from Bergen, Norway, to colonize the uninhabited Aldabra Island, in the Indian Ocean, three hundred miles north of Madagascar, which is said to be admirably adapted to agricultura industry.

The funeral of General Hooker in New York on Wednesday was very imposing. The California Pioneers sent a floral offering, with the legend: "California Pioneers: We will meet on the Divide!" About a dozen Pioneers attended the church in a body.

SOTHEERN CALIFORNIA.—We are in receipt from its author, C. H. Phillips, of San Luis Obispo, a copy of Southern California, containing facts of interest to tourists and immigrants. It is a valuable work.

A steamer lately arrived at New Orleans from Liverpool with 200 farmer immigrants for Texas. In five years from now they will vote the Republican ticket.

During the visit to Philadelphia of the Fourteenth, Brooklyn, the regimental battle flags, carried in a glass case, created a great deal of patriotic enthusiasm.

James Pront, pumpman at the Requa shaft, Virginia City, Nev., was knocked from the top of the cage on Wednesday morning and falling 150 feet in the sump was killed.

It is not probable that the invitation received by the New York Twenty-second Regiment, to visit London next Spring will be accepted.

About 300 Chinamen in New York have white wives. A good place for California Chinamento locate.

It is said that General Grant has been tendered the Presidency of the Texas Pacific Railroad Company at a salary of $50,000 a year.

Col. E. J. C. Kewen, an old Californian, and once prominent in her politics, is seriously ill at his home in San Gabriel, Los Angeles county.

The Secretary of the Treasury has issued an order prohibiting the importation of cattle from Canada, to take effect December 1st next.

Mrs. Jones says her husband will never be struck by lightning, because he always gets insulate.

The Monitor *Argus* says that considerable prospecting is going on in Alpine county.

POT AND KETTLE.—The fight still goes on, and outside remarks are not complimentary to our cotemporaries.

Wells, Fargo & Co. have established an express office at Mason Valley.

Chew Jackson's Best Sweet Navy Tobacco.

CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay loss of manhood, &c. I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. JOSEPH T. INMAN, *Station D, New York City.*

MARRIAGES

DONNELLY—MILLIKEN.—In Bodie Nov. 3d, by the Rev. G. B. Hinkle, Charles B. Donnelly to Anna Milliken.

DEATH.

FALLS.—In Bodie, November 2d, John Falls, a native of Ireland, aged 28 years.

ADVERTISE

IN THE

CHRONICLE.

A man in Sacramento is getting up a class of those anxious to learn to play that popular musical instrument, the accordian! What an infliction that will be—worse than the pneumonia.

Jack Frost has put an end to the yellow fever epidemic at Memphis. If the people of that place would burn it up and start afresh it would be a good thing for the country.

The first baby born in Tombstone, Arizona, was to Mrs. H. A. Fuller, last Sunday night. The whole town got drunk over the news.

During the progress of the Grant party through Iowa, the train at one point made 45 miles in 40 minutes.

THE CHRONICLE.

BODIE, NOVEMBER 8, 1879.

Sweden.

A correspondent of the London *Times*, traveling in Sweden, speaks of the general well-to-do condition of the country. Each of a dozen small towns which he visited had its school house, its church, its newspaper, and most of them had their public garden; the streets were paved and lighted with oil lamps swung across as they were in old Paris; the houses were trim and neat. The people were as neat as their houses. He had not met a half dozen beggars since he had been in the country. Even in Stockholm he saw no signs of poverty, while a crowded opera house, overflowing cafes and brilliant shops betokened an easy opulence. There is a general level of comfort in Sweden without any violent contrasts. The army and navy of Sweden cost only a trifle. The national debt is only $50,000,000, and has been solely employed in the construction of railways. All the children go to school, and over 90 per cent. of the people can read and write. The subdivision of property is such that in the country the greater part of the population own their own farms. Near Gothenburg a friend pointed out from a hill near his house forty properties, thirty-six of which belonged to present owners, themselves the cultivators of the soil.

THE NEW POSTAL CARD.—Mr. Tyner, the postal agent at Holyoke, received yesterday forty steel plates, engraved with the design for the proposed 2 cent international card adopted by the postal union. It can be sent to all countries represented in the Union, including all of Europe, China, Japan, Brazil, etc. The design necessarily contains more printing than the present card, and has a border something like the old one. At the top are the words' "Universal Postal Union," a little curved, and repeated in French in smaller type beneath. Then come words, in bold type, "United States of America," also repeated in French, and then the line in English only, "Write only the address on this side." The stamp is a well-defined head of Liberty, surrounded by an elliptical border, with a figure "2" on each side, and the words "U. S. Postal Card," around it. The cards will begin to be issued early next month, the contractors being obliged to put in a new press and two cutters.—Boston *Herald*.

A. B. Stephens, as he waited for his train in the railway station at Louisville the other day, became the object of an agreeable happening. An old friend, a jeweler, walked up to him, and placidly presented him with a handsome watch and chain as a testimony of his esteem and friendship. Mr. Stephens was naturally extremely pleased.

A young lady of New York was married the other day in the wedding gown of her grandmother, made seventy years ago, without alteration, and so similar were the styles that no one knew but it was a new one "made for the occasion."

When Fontenelle was dying his doctor said, "Do you suffer?" "No," replied the philosopher, "I only feel some difficulty in existing."

NOTICE.

TO THE PEOPLE OF BODIE:

You are hereby required and directed to comply with the following orders.

First—That all joints of pipe from stoves up must be rivited.

Second—That any pipe less than fifteen inches from the wall must have zinc or tin between it and the wall.

Third—That ceiling and roof-plates must have a vacant space between pipe and material of 2½ inches.

Fourth—That all pipes must not run nearer than ten inches to ceilings built of wood, paper or cloth.

Fifth—That all stovepipes must pass through the roof-plate at least ten inches, and the top pipe taper joint to go over both the pipe and roof-plate.

Sixth—That all stovepipes must have dampers in them.

Seventh—That all pipes must extend to or above the ridge of the roof and be securely fastened or stayed to the roof.

Eighth—That ashes be not left in wooden vessels or set out of doors while hot.

By order of
COMMITEEE OF SAFETY.

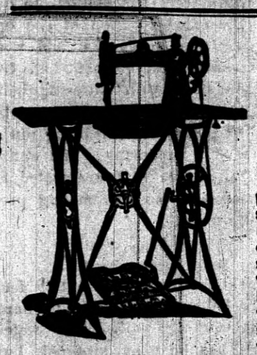
LIGHTNING SEWER



THE NEW WILSON
Oscillating Shuttle
SEWING MACHINE

Is wonderful in its conception, unprecedented for doing a large range of sewing in textile fabrics and leather. Its motions are continuous, admitting of an extraordinary rate of speed, either by steam or foot power. Every motion of the treadle makes six stitches, thus producing about one-third more work in a day than other Sewing Machines. It has no stop motions, and tightens the stitch with the needle out of the fabric. It uses the well-known Wilson Compound Feed on both sides of the needle. It has two-thirds less parts than any other first-class Sewing Machine. Its arm is fully eight and one-half inches long and five and one-half inches high, and the whole Machine is very compactly and scientifically constructed in proportions, elegance, design and appearance. Its simple, powerful and perfect mechanism places it as far in advance of all other Sewing Machines as the telephone is superior to the tin speaking tube. The WILSON MENDING ATTACHMENT, for repairing all kinds of textile fabrics WITHOUT PATCHING, furnished FREE with all WILSON SEWING MACHINES, together with a Tucker, Ruffler, Corder, Set of Hemmers, Binder, etc. Prices furnished with freight charges prepaid, and machines furnished on trial to responsible parties, to be used with steam-power, in places where we have no agents. Send for Illustrated Catalogue and Price List, No. 230.

MEDICAL.

TO THE UNFORTUNATE.

Dr. J. F. Gibbons
DISPENSARY,
623 KEARNY St.,
corner of Commercial, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhœa, Gleet, Stricture, Syphilis, in all its forms, Seminal Weakness, Impotency, night losses by dreams, pimples on the face and lost manhood can positively be cured. The sick and afflicted should not fail to call on him. The doctor has traveled extensively in Europe, and inspected thoroughly the various hospitals there, obtaining a great deal of valuable information, which he is competent to impart to those in need of his services. DR GIBBONS will make no charge unless he effects a cure. Persons at a distance MAY BE CURED AT HOME. All communications strictly confidential. You see no one but the Doctor. Send ten dollars for a package of medicine. Persons writing to the Doctor will please state the name of the paper they see this advertisement in. Charges reasonable. Call or write. Address DR. J. GIBBONS, Box 1,957, San Francisco, ap12-1y

D. SPINNEY
No. 11 Kearny Street,
SAN FRANCISCO.
Treats all Chronic and Special Diseases.

YOUNG MEN

WHO MAY BE SUFFERING from the effects of youthful follies or indiscretion, will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. DR. SPINNEY will guarantee to forfeit $500 for every case of Seminal weakness or private disease of any kind or character which he undertakes and fails to cure.

MIDDLE-AGED MEN.

There are many at the age of thirty to sixty who are troubled with the frequent evacuation of the bladder, often accompanied by a slight smarting or burning sensation, and a weakening of the system in a manner the patient can not account for. On examining the urinary deposits a ropy sediment will often be found and sometimes small particles of albumen will appear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

OFFICE HOURS—10 to 4 and 6 to 8. Sundays from 10 to 11 A. M. Consultation free. Thorough examination and advice, $5.
